

## PLP Equal opportunities monitoring form – Communications and Engagement Director 241105

Thank you for taking the time to complete this form. PLP monitors characteristics such as age, gender, race and disability among applicants as well as among our employees to help us build and maintain a socially diverse and inclusive workplace. We use this data to examine whether our recruitment and selection procedures are working fairly and think about how we might further improve them. For staff it helps us assess whether we are maintaining an inclusive culture and supporting all employees throughout their career helps us improve our policies on development, retention, mentorship, sponsorship and progression.

We will store the data collected on this form as confidential personal data and restrict access to this information. The data retained will be used for the purposes of equal opportunities monitoring. This data is not shared with people making selection decisions. Our HR team will use the information provided to identify up to one candidate who is eligible for our Additional Interview Scheme (where an extra first-stage interview slot may be offered to an appointable candidate from an under-represented community) and to identify any relevant criteria to base selection on where the hiring manager declares candidates to be of equal merit. We always aim to select the best person for the job and we believe these positive actions help us ensure we give everyone is given fair consideration.

If you opt to provide equal opportunity data to PLP, it will be retained only as long as is necessary to undertake the above positive action and record the recruitment decision against the anonymised data or no longer than six months after the recruitment process or your subsequent employment ends, whichever is later.

It is appreciated that the racial and other classifications on the form may be arbitrary. Most of the classifications we use are as used by the Office of National Statistics for the census; this allows us to compare the diversity of our recruitment and staff with national statistics. We collate information on socio-economic status as recommended by the Social Mobility Commission Toolkit and acknowledge it is particularly difficult for these questions to be both accurate and suitable for an employer to ask. If you do not wish to disclose any particular information, please leave that section of the form blank. If you think we should ask any of these questions differently or not at all please let us know at [hr@publiclawproject.org.uk](mailto:hr@publiclawproject.org.uk)

**Please tell us where you heard about this vacancy. Tick up to three**
